Cats and Kittens Available to Adopt!

Lavender (female) brown tabby. Skittish of new places/noises. Takes a little time to acclimate, but she is crazy playful. Loves chasing toys on sticks, loves the laser pointer, and just purrs like crazy when she flops next to you and wants petted.

Daisy (female) white/brown tabby. The most patient cat ever. Never angry or aggressive. After introductions she loves whatever new cat enters the kitty room. Not a fan of being held but she is patient with it when needed. Enjoys chewing on the silvervine sticks. Her favorite toy is the stick end of toys on sticks. She loves ferreting it out from under kitty tunnels, beds, etc.

Kumo (male) grey/white. He is a reserved kitty. A little more skittish than his sibling, but he loves to chase the laser pointer toy and will go after toys on sticks as well. Enjoys being petted and will rub on legs at food-time. Does not enjoy being held. (Brother Kuro)

Kuro (male) black/white. Super sweet and patient with being held. Takes a little while to acclimate to new cats, but once he does he is playful and not aggressive. He is not a good jumper and should not be allowed to go too high with only 1 big jump down. Very curious and loves the laser pointer. (Brother Kumo)
