

Sadie Lady... (was Amy)

Sadie Lady has adjusted to our household and family wonderfully! The foster's hard work definitely showed in her behavior and personality. She even used the litter robot with ease right away.

Sadie Lady is a gentle and warm spirit with a healthy level of curiosity. She loves to cuddle and is friendly with her fur siblings, as you can see in the photo! She learned to fetch from her Bengal brother. Thank You for letting me give her a loving home.

Sadie still loves those spring toys!

Sadie Lady

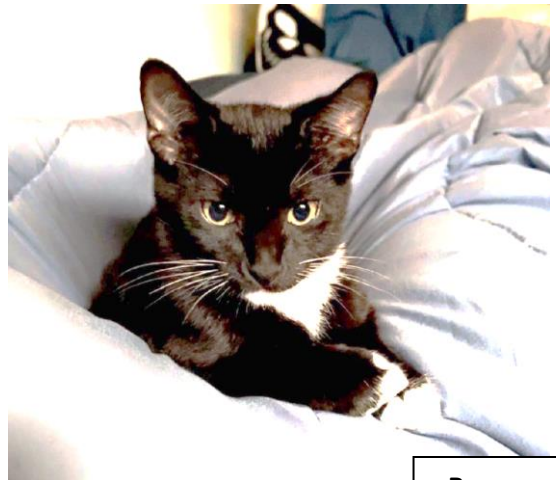

Happy Tails

Siren

Siren (was Hilton) My Mom says I am very attached to her like a human child. I like to be held while she walks around the house. I am the baby of the four cats here and I love to play and snuggle with them.

Bones

Bones (was Brody) aka "Fish Wire" Bones is an amazing guy. He loves to sunbathe in the window. He sleeps above my head. What a cuddler and loves my other kitten!
